

Notice of Class 1 Permit Modification
Eastman Chemical Company
Kingsport, Tennessee
TND 00 337 6928
Hazardous Waste Combustion Permit TNHW-131

Tennessee Eastman Division, a Division of Eastman Chemical Company (EPA I.D. Number: TND 00 337 6928) holds permit # TNHW-131 authorizing the treatment of hazardous waste in three incinerators (two rotary kilns and a liquid destructor) and four boilers located in Kingsport, Sullivan County, Tennessee. The Tennessee Department of Environment and Conservation's (TDEC) Division of Solid Waste Management (DSWM) issued permit # TNHW-131 on December 14, 2006. The Division of Solid Waste Management modified permit # TNHW-131 on July 12, 2007 in order to correct typographical errors and clarify requirements. The modification is pursuant to the Tennessee Hazardous Waste Management Act of 1977, as amended (Tennessee Code Annotated 68, Chapter 212, Part 1) and the regulations promulgated thereunder by the Tennessee Solid Waste Disposal Control Board (found at Tennessee Rule Chapter 1200-1-11) in Rule 1200-1-11-.07(9)(c).

For further information contact: Mr. Richard Whitson, Division of Solid Waste Management, Johnson City Environmental Assistance Center, 2305 Silverdale Road, Johnson City, TN, 37601; telephone 423-854-5464 or Mr. Keith Harris, Tennessee Eastman Division; telephone 423-229-3926.
